

*Rockwood Summit High School
Performance Floor Set-Up and Flow
February 2, 2008*

Audience

Entrance and Exit for Guards and Drumlines

Each performing unit will enter the performance floor from the audience's far left. A **HORIZONTAL** time line will be in use at this festival. The initial set-up area is the back half of the performance area. Following the performance, each unit will pull their floor, props and equipment to the front half of the performance area, and then exit to the audience's near left. All entrance and exit doors to and from the performance area are double doors (middle posts will be removed).
