MCCGA Percussion Super Show-Hall Assignments

Due to the predicted snow we are going to try to locate all instruments in the halls and not ask groups to reload the trucks after each performance. Please ask the members to compact the instruments as much as possible and be respectful of other groups and the facilities. However, if you have large props that are going to fill the hall, we ask that you use common sense and reload the truck back onto the truck after your performance. There is only so much room in the building. Instruments are the first priority in the halls. Thank you!
