X. TAPING AND PADDING POLICY

To assist in defining for our units and our festival hosts the rules MCCGA will enforce relative to padding and taping equipment, the MCCGA Board has developed the following policy and examples. It must be noted that penalties for violating these rules may only be enforced by an MCCGA Festival Director or judge. This includes whether particular equipment is allowed to enter the performance area.

A. Percussion/Winds

According to WGI Percussion/Winds rules:

“For the protection of the wooden competition floors, all equipment must be properly taped or otherwise be prepared to assure that damage to the floors will not occur. Inspection will occur at all Regionals and Championships. Damage to the floor such as may occur by dragging the tympani; wheels on carts locking, etc. will be the responsibility of the ensembles and is subject to penalty.”

Clearly this is a vague and broad definition and the subsequent penalty is as well (.1 up to disqualification at the discretion of the Chief Judge). The rationale for the rule is that any item that may cause damage to the floor must be taped or padded to provide protection. It is important to note that the rule allows for penalties for damaging the floor, not for not taping or padding equipment. So, it is not against the rules to not tape or pad equipment, but it puts the unit at risk for not doing so and, as an MCCGA policy to protect our festival hosts, the following items must be taped or padded prior to entering the performance area (regardless of whether the unit uses a tarp or not):

1. Tympani pedals (where the tympani pedal rests on or near the floor)
2. Vibraphone, chime, or other pedals (where such pedal may touch and damage the floor)
3. Music stand bases
4. Wheel locks that may contact the floor (if they are long enough to do so if overextended)
5. The bases of any props
6. Additionally, all wheels on carts and equipment must be in good working order

If there is an item that a festival host believes may cause damage to the floor, it is imperative that the Festival Director be advised immediately so that the festival is not delayed. Only the Festival Director may prohibit a piece of equipment from entering the performance area.

B. Color Guard

According to WGI Color Guard rules:

“All equipment tips on rifles, flagpoles, and sabres must be padded or taped. The bottom of all props, flats and scenery made of wood, metal or PVC type plastic must be padded or taped so as not to damage the floor. Soft soled shoes need no added protection. Hard-soled shoes must be taped.”

This rule is fairly specific and the penalty is as well (2 point penalty). Relative to the protection of equipment, the penalty is for not having padded or taped the equipment, irrespective of the damage done to the floor (this sort of damage is often hard to tell because marks are typically small and made under the tarp laid on the floor). Consequently, units that refuse to tape or pad their equipment will be subject to penalty even if they leave no mark on the floor.

However, relative to props, the rule is that they be padded or taped so as not to damage the floor. The intent here is clearly to prevent damaging the floor through dragging or otherwise harming the floor in setting up, performing, and tearing down these props. This can include malfunctioning wheels, dragging a prop on its (non-taped) side, etc...

To define this rule, the following items must be taped or padded prior to entering the performance area (regardless of whether the unit uses a tarp or not):

1. Flag pole tips (if a hard plastic cap is used, it must be padded or taped)
2. Rifle tips and butts (this does not include the bolt, strap, or any other part of the rifle)
3. Saber tips and the base of the hilt (this does not include the blade or the sides or face of the hilt; only the end where the hilt attaches to the saber)
4. Any other prop equipment (sickles, poles, sticks, etc...) that has a tip or end must have each end taped or padded
5. The bases of any props
6. Additionally, all wheels on carts and equipment must be in good working order

If there is an item that a festival host believes may cause damage to the floor, it is imperative that the Festival Director be advised immediately so that the festival is not delayed. Only the Festival Director may prohibit a piece of equipment from entering the performance area.

XI. SCHOLARSHIPS AND AWARDS

- A. The Public Relations Administrator will annually gather a committee to award scholarships to MCCGA participants. The number of scholarships available each year and their amounts will be determined by the Executive Board. Each performing unit may submit one scholarship applicant approved by the unit director.
- B. Applicants must be an active performing member of a unit that attends MCCGA Championships.
- C. Applicants must be in their senior year of high school or currently attending college.
- D. Applicants may represent either a MCCGA winter guard or winter Percussion/Winds unit, but not both.
- E. All applications must be postmarked/emailed on or before the last Friday of February.
- F. The application for the scholarships will be posted on the MCCGA website by February 1.
- G. The President will accept nominations for the Volunteer of the Year Award. The full MCCGA Board will determine the recipient of the Volunteer of the Year Award. An application for this award will be available on the MCCGA website by February 1.

XII. SOUND POLICY (Color Guard)

- A.** All color guards should do a soundcheck at the designated times provided in the contest information packet to ensure the playability of any device or CD.
- B.** Color Guard is responsible for providing the method that music will be played. e.g CD, MP3, completer, etc.
- C.** Color guard must provide their music in a timely manner to the designated sound operator. Any delay in providing music is the responsibility of the color guard.
- D.** Color Guard must have a designated person at the sound table to operate any device provided to play music such as MP3 players or computers. Guard's representative is responsible to set up and play device. If a CD is provided, the color guard representative must instruct the sound operator as to what track or other relevant information is needed to start the music when directed by the Timing and Penalty judge or after the color guard's introduction.
- E.** If the color guard has an issue with the music such as music is too soft, it begins in the wrong place or skips, the color guard's representative must make the decision to stop the music and tell the operator to stop the music
- F.** Interval timing will continue as the color guard resets and begins again. The Contest Director has the sole discretion in waiving any timing and penalty due to the restart. If the stoppage is due to faulty sound equipment, operator error or an unexplained reason, the overtime penalty may be waived.
- G.** Issues related to the equipment provided by the color guard, quality of the CD or the color guard representative's error will result in the actual interval timing being used and penalties, if any, being assessed.
- H.** Volume direction must come from the color guard representative at the sound table. Direction will not be taken from the audience viewing area or across the floor. Final volume discretion is given to the sound operator based on their equipment and the Chief Judge who ultimately determines an appropriate volume level.
- I.** The color guard representative may provide direction to the sound operator during the performance regarding equalization.
- J.** It is the responsibility of the color guard to provide their music for each performance and to ensure that their soundtrack is working appropriately. CD's may not be left at the sound table between performances.
- K.** Under no circumstances will verbal abuse of the sound table operator be tolerated.
