

Please plan arrival no earlier than 90 minutes before performance. When you arrive at entrance to school for check in, leave team on bus, come in, get wristbands and then get team off bus. We will have guides to take you to your area. Equipment trucks will go on to side of school where props will be housed until performance.

You will need to wear masks except when performing or eating. Our cafe will have a great menu for you, but we ask you to keep all food in the cafe. No outside food will be allowed. Please make sure your fans, etc. are aware that they wear a mask at all times when in the building. We will provide masks for those without.

A guide will come to take you to warmup and performance gym is right across the hall. We will be using Horizontal line. After performance you will go out back doors and outside to the left to enter field house for tarp folding and pack up. There is a utility door on the side of the field house for pack up. Just pull your truck or trailer on the driveway next to the field house.

We are using all protocol given to us by MCCGA, WGI, and our school district.

Thank you for all of us having a safe and enjoyable show, let's do everything we can to make this a safe season for all. My email is musictax@charter.net if you need to contact me at any time about any issues.
