

# Videotaping

Although MCCGA does not prohibit videotaping a unit performance any longer at our festivals, there are a few reminders that need to be sent out as we had a couple of issues at the Belton Festival. Please share these with your spectators to avoid any further issues.

1. You may only video your own unit's performance. You cannot video another unit or the entire festival.
2. Tripods are NOT allowed. This takes up too much space in the stands and seating is already at a premium.
3. Recording should not obstruct the view of spectators around you.

Also please keep in mind that there are copyright laws in place and MCCGA is not responsible for any citations or fines that may be issued to a unit or individual for posting a performance on Social Media platforms. The unit and/or person posting assumes all risk. Thank you MCCGA
