TARP/PROP/EQUIPMENT UNLOADING & STORAGE:

- Trailers should unload props/tarps/equipment immediately upon arrival; unit check-in is in the same spot. There will be a place for units to set their stuff while unloading before moving to their spot and this will make the flow easier for everyone.
- Have your tarp/prop crew meet in the holding hallway NO EARLIER than 7 minutes prior to your unit's performance time. There will be a lot of traffic in this hallway and we need to accommodate units checking in and props/tarps loading/unloading.
- We will provide holding slots (taped off with unit names, much like unit storage) for props and tarps to stay all day, but it is still encouraged that equipment/props are loaded immediately following your performance time to keep traffic flowing.

- A laptop for CDs and an aux cord will be provided for your use (you must provide your own dongle if needed), or you may utilize your own deck and plug it in to the system we have provided.
- Please deliver your music to the sound table prior to your unit's performance. It is strongly suggested that you have a backup format of your music.
- If you provide a CD with multiple tracks, you must notify the sound engineer of the correct track.
- This year it is a requirement, that a representative from your unit stay with the sound engineer during your performance.
- Sound check will be provided 1 hour prior to the contest start time and during breaks (at the discretion of the contest director).
- Unit directors may pick up their music at the sound table, shortly after your unit's performance.

WARM-UP AREA:

- Body and equipment warm-up will be located in the auxiliary gym, with no movement between the two. Performers will transition to a holding area in the hallway prior to their warm up time (refer to the contest flow map for further clarification).

- Do NOT utilize other areas of the school to warm-up on equipment prior to your actual warm-up time.
- Music will be allowed during the second half of your warm-up time. You must provide your own device for music.
