

Casting your Vote

[Open in a new window](#)

In the [overview](#) page, you should see a light blue section at the top that shows the list of votes you have access to.

1. Click Launch Ballot next to the vote you'd like to launch.

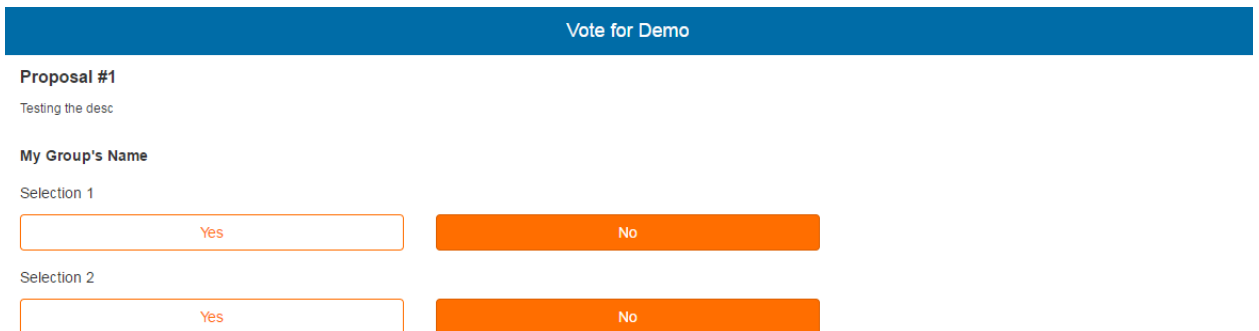

2. A new window will open that allows you to vote on open items.

There may not be any open items to vote on. Once an item is open for voting, you'll be able to make your selection.

There are no open items to vote on!

3. When an item is opened for voting, you'll be presented with buttons to make your selection. Your vote is automatically saved.

A screenshot of a voting interface. At the top is a blue header bar with "Vote for Demo". Below it, the text "Proposal #1" is followed by "Testing the desc". Underneath is "My Group's Name". There are two sections, "Selection 1" and "Selection 2". Each section has a white button with "Yes" and an orange button with "No".

Vote for Demo	
Proposal #1	
Testing the desc	
My Group's Name	
Selection 1	
<input type="button" value="Yes"/>	<input type="button" value="No"/>
Selection 2	
<input type="button" value="Yes"/>	<input type="button" value="No"/>

4. You can change your selection by clicking the new selection.

Vote for Demo

Proposal #1
Testing the desc

My Group's Name

Selection 1

<input type="text" value="Yes"/>	<input type="text" value="No"/>
----------------------------------	---------------------------------

Selection 2

<input type="text" value="Yes"/>	<input type="text" value="No"/>
----------------------------------	---------------------------------
